

## CAPABILITIES STATEMENT

A professional image-maker for 38 years, I'm SBE certified by the California Department of General Services and I'm a sole proprietor offering turn key solutions for your imaging needs.

My specialties are time-lapse video productions and construction documentation. I'm self-insured, OSHA trained and certified, carry my own PPE and have fall protection training.

Since 2011 I've been contracted by the Port of Long Beach, the City of Pasadena, the Burbank Unified School District, Madison Square Garden, Mitsubishi, Otto Fuchs Aerospace, the Huntington Botanical Gardens and Library. These clients and others have used my videos for:

- 1) Insurance requirement
- 2) Proof of application
- 3) Contract enforcement
- 4) New business development
- 5) Marketing
- 6) Donor solicitations
- 7) Historical archive
- 8) Structural engineering

A video time-lapse is not just a job for me. It's the art form I cultivate. Constantly searching out new technologies and software to facilitate my vision keeps me at the forefront of the industry and the competition. I'm a leader in the field. My reputation is for timely work down to the highest visual qualities. Testimonials on my website can be found at:

<http://buildabetterphotograph.com/testimonials/>

The nature of my work involves being safe, head on a swivel and staying out of the way of the work being performed. I've experienced a lot of situations that required discretion and sensitivity for the subject at hand. Be assured that work is performed with the upmost attention to detail, combining exceptional technical knowledge, superb talent and first-rate customer service.

The imaging tools I use are not as important as the ideas I have in how to use them effectively, but rest assured that outcomes are always the highest quality.

Providing certificates of additional insured are obliged in the amount of two million dollars.
